CRUISE COMPASS

Independence of the Seas®

DAY 4 Tuesday, April 14, 2015
St. Maarten

ENJOY PHILIPSBURG, THE CHARMING CAPITAL OF DUTCH ST. MAARTEN

Before St. Maarten became a must-see destination for cruisers, the island was most popular for its must-have ingredient. Salt! Back in the 17th century, Dutch settlers started harvesting salt from Great Salt Pond and sending shiploads back to Europe. And even before the Europeans started craving the stuff, the natives named the island "Soualiga", or "Land of Salt". Today, the island is split in half between France and the Netherlands Antilles. Other than the island's name (spelled Saint-Martin on the French half), both sides are quite unique.

CRUISE COMPASS

Independence of the Seas®

DAY 5 Wednesday, April 15, 2015 St. Kitts

BASK IN THE BEAUTY OF BASSETERRE

Columbus sailed past the island of St. Kitts, never actually landing on its pink-sand beaches. Yet by the time French and English settlers arrived in the 1620's, this lush paradise was known as St. Christopher. The town of Basseterre, one of the oldest in the Eastern Caribbean, was originally part of the French colony. Then in 1727, the British made Basseterre the capital of the entire island. It was right around this time that the world fell in love with sugar. And St. Kitts, with its rich volcanic soil and tropical climate, had just the right conditions for a booming industry. At one point, 68 sugar plantations dotted the 68-acre island.

Safety Warning
Serious accidents and fatalities have occurred when guests have rented or taken independent tours involving mopeds, scooters, or wave runners (jets skis). Except on our private destination at Labadee, where our trained and professional aquatics staff offer organized jet ski tours; Royal Caribbean strongly recommends that guests do not participate in such activities while ashore.

Help Health Information
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses – such as a Norovirus that can be transferred easily through person-to-person contact – is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. According to the U.S. Centers for Disease Control and Prevention and Public Health Agencies around the world, Noroviruses affect millions on land each year. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, you must visit the ship's medical facility for a complimentary consultation and treatment, if necessary.

Help Health Information
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses – such as a Norovirus that can be transferred easily through person-to-person contact – is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. According to the U.S. Centers for Disease Control and Prevention and Public Health Agencies around the world, Noroviruses affect millions on land each year. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, you must visit the ship's medical facility for a complimentary consultation and treatment, if necessary.

CRUISE COMPASS

Independence of the Seas®

DAY 7 Friday, April 17, 2015
Labadee

WELCOME TO LABADEE, OUR VERY OWN PRIVATE PARADISE.

On the north coast of Haiti sits a tropical haven we can call our own. Set amid spectacular mountains and lush foliage, Labadee, our third and final port of call, is reserved exclusively for Royal Caribbean International guests. Though privately owned, this breathtakingly beautiful destination still retains much of its local color. In 1492, the island was discovered by Christopher Columbus on his first voyage to the New World. Originally named "La Isla Española", it was later colonized by the French, whose influence is still prevalent in both culture and language.
