NOTICES

Garbage Disposal
The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.

Important Notice to our Young Cruisers
Those guests 17 years of age and under who are not accompanied by an adult must be clear of all public areas by 1:00 am each evening unless involved in an Adventure Ocean activity / Teen activity. For further guidance please refer to the Guest Conduct Policy which can be found in the Cruise Services Directory in your stateroom.

Public Health Advisory:
Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk for foodborne illness, especially if you have certain medical conditions.

Helpful Health Information
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses – such as a Norovirus that can be transferred easily through person to person contact – is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

Health Advisory
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellant to both skin and clothing. The most effective repellants are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity – in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellant may be purchased in the onboard gift shop or in the medical facility.*

High Temperature: 82°F (28°C)
Sunrise: 6:17 am **Sunset:** 7:47 pm
(Also available on Channel 17)

IMPORTANT THINGS TO KNOW TODAY

Suggested Dress Code: Formal: Tuxedo / Dresses
Tuxedos or suits and ties for men and cocktail dresses for ladies. We kindly ask, please no tank tops or hats in the dining room at any time, and no shorts at dinner. We also ask that you please use a cover up over your bathing suit, as well as footwear when entering the Windjammer Café.

Luggage Delivery
We appreciate your assistance on checking the luggage received in your staterooms. Should you find any not belonging to you, kindly place it outside your stateroom and dial "0" for assistance. We appreciate your cooperation in this matter.

General Tips
Please remember that magnetic and electronic devices such as cameras, cell phones and purses or sunglass cases with magnetic clasps will demagnetize your SeaPass® Card and you will not be able to open your stateroom door. If this does happen, please stop by the Guest Services Desk and they will print you a new one.

Pools, Hot Tubs and Deck Chairs
Selected Pools and Hot Tubs are open 24 hours for your enjoyment. Guests are reminded there is no Lifeguard on duty. The Solarium Pool, Hot Tubs and the Solarium area are reserved for guests 16 and older only. Children must be supervised in the two Main Pools and in the Splash Away Bay at all times. As a courtesy to other guests, we ask you not to reserve deck chairs on the upper decks or poolside. Royal Caribbean International is not responsible for theft or loss of property left on deck chairs or pool areas.

Satellite Connection
Due to our positioning and weather, satellite outage may occur during your cruise vacation. This will affect several services, including Internet, telephone, ATM machines, TV broadcasting and daily news. We apologize for any inconvenience.

We're Sensitive!
We kindly request not to flush anything down the toilets except for the supplied toilet paper. Items such as wet wipes, tissue paper, make-up remover wipes, cotton buds, paper towels, sanitary products, nappies etc. will clog the system. Our system is very sensitive and works on a vacuum unlike land based systems. Please do not place excessive amounts of toilet paper in the toilet bowl as this will block the toilet and cause disruption to the entire vacuum system. We appreciate your cooperation.

Wash & Fold Laundry Service
Save yourself the work of doing laundry once you get home. We'll take care of it for you with our Wash & Fold Laundry special. This is an additional service offered beyond our regular laundry service. Fit as much as you can into the bag provided for you and we'll take care of the rest. Available for just \$30 per bag. Ask your Stateroom Attendant for more information.

Tomorrow: We will be at sea.

DAY 3

Tuesday, July 5, 2016
Today we are At Sea

TODAY'S FORECAST

Partly Cloudy

High Temperature: 86°F (31°C)

Sunrise: 6:09 am **Sunset:** 7:28 pm

(Also available on Channel 17)

IMPORTANT THINGS TO KNOW TODAY

Suggested Dress Code: Casual

Inclement Weather Advisory

In the event the ship experiences unusual weather or sea conditions causing excessive motion, we advise you to exercise caution. Use available handrails throughout the ship and watch hands and fingers in the doorways. Also, all guests should take extra care when on open decks — there may be strong winds, and/or decks may become slippery when wet. Thank you for your attention in this important matter.

Ship's Time

All advertised ship arrival and departure times, as well as Royal Caribbean Shore Excursions are based on ship's time. Please note that your mobile and other electronic devices may automatically reset itself to local times. Please follow Ship's time throughout your cruise vacation.

Avoid The Lines

Save time and avoid standing in line. Place a credit card on your SeaPass® account today. Guests who opted for a cash account will be required to settle their account at the Guest Services desk before 11:00 pm the last night of your cruise vacation, however those with a credit card on their account will be automatically billed.

Satellite Connection

Due to our positioning, satellite outage may occur during your cruise vacation. This will affect several services, including Internet, telephone, ATM machines, TV broadcasting and daily news.

We apologize for any inconvenience.

Careful What You Flush

Our waste disposal system operates using a highly sensitive vacuum system, so we kindly ask you flush nothing other than toilet paper and your waste down the toilets. Personal hygiene products, hand and bath towels, paper towels, food and other items will shut down the system, adversely affecting many areas around the ship. Thank you for your consideration.

General Tips

Please remember that magnetic and electronic devices such as cameras, cell phones and purses or sunglass cases with magnetic clasps will demagnetize your SeaPass® Card and you will not be able to open your stateroom door. If this does happen, please stop by the Guest Services Desk and they will print you a new one.

Tomorrow: We will be in Roatan, Honduras

NOTICES

Helpful Health Information
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person to person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

Health Advisory
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see http://wwwnc.cdc.gov/travel/notices]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellant to both skin and clothing. The most effective repellants are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity - in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see http://wwwnc.cdc.gov/travel/page/avoid-bug-bites). Mosquito repellant may be purchased in the onboard gift shop or in the medical facility."

NOTICES

Garbage Disposal

The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.

Agriculture Notice

Please be advised that guests are not permitted to bring any fruits & vegetables, seafood, meat & poultry, cut flowers or soil onboard or off the ship. Any violation of this policy may result in a fine. Thank you for your cooperation .

Helpful Health Information

Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses – such as a Norovirus that can be transferred easily through person to person contact – is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

Health Advisory

Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellant to both skin and clothing. The most effective repellants are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity – in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellant may be purchased in the onboard gift shop or in the medical facility."

Liberty of the Seas®

DAY 5 Thursday, July 7, 2016
Today we are in Belize City, Belize

BELIZE CITY, THE GATEWAY TO A TROPICAL WONDERLAND OF ADVENTURE

In the 1700s, Belize City was actually founded by former pirates. When a group of British buccaneers decided it was more lucrative to harvest lumber out Belize's wooded interior, they cleared the land and set up shop on the coast. With tropical hardwood in great demand, the town grew rapidly. Thousands of African slaves were brought in to float the logs and load the ships, and before long, the European population had exploded as well. The two groups and their descendants began to mix, ultimately creating the Creole culture so prevalent today. Though no longer the capital, Belize City remains at the heart of the country – its gorgeous Caribbean coastline and rich cultural life a magnet for residents and tourists alike.

NOTICES

Garbage Disposal
The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.

Agriculture Notice
Please be advised that guests are not permitted to bring any fruits & vegetables, seafood, meat & poultry, cut flowers or soil onboard or off the ship. Any violation of this policy may result in a fine. Thank you for your cooperation .

Helpful Health Information
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses – such as a Norovirus that can be transferred easily through person to person contact – is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship’s medical facility for a complimentary consultation and treatment if necessary.

Health Advisory
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see http://wwwnc.cdc.gov/travel/notices]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellants are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity – in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see http://wwwnc.cdc.gov/travel/page/avoid-bug-bites). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility."

Important Health Information
Royal Caribbean International adheres to the highest food safety standards in the industry. As part of our food safety process, Royal Caribbean International only purchases food from approved suppliers, which allows us to trace back the origin of any food at any time served on board our ships. Onboard our ships, all non cooked ready to eat produce, is always washed in a sanitizing food safe solution to kill any bacteria which may be left on fruit and vegetables.

Health Advisory
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellants are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity – in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility."

NOTICES

Garbage Disposal
The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.
Helpful Health Information
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses – such as a Norovirus that can be transferred easily through person to person contact – is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.
Health Advisory
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see http://wwwnc.cdc.gov/travel/notices]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellents are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity – in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see http://wwwnc.cdc.gov/travel/page/avoid-bug-bites). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility.
